

Building Improvements

Welcome parents, students, and visitors! The list below outlines the nearly \$1.5 million in improvements and renovations completed at Ashley Academy over the summer:

- New heating and air conditioning system in main building classrooms that includes outside air and independent controls in each room
- Dehumidification added in all classrooms
- New heating and air conditioning system in dining room, media center, and main office
- Removal of old air conditioning units
- New ceilings in hallways, 200 building, and other locations throughout the school
- New fire alarm system
- Roof and gutter repairs on main building and gym
- Roof replacement on lower roof of 300 building
- Grading and repairs to site drainage around school
- Landscaping around the creek
- New and repaired sidewalks, parking, and curbing along front entrance and around school
- New carpet in media center and ramp in main lobby
- New glass windows in dining room
- Painting in all classrooms, hallways, dining room and media center
- New lights and speakers in hallways and lobby
- New lights in media center and dining room
- New boiler-room doors and a new door at principal's office
- Thoroughly cleaned all classrooms and light fixtures after construction
- Pressure washing of windows, buildings, and sidewalks
