Fourth Grade HAG Teacher

JESSICA PETREE

Classroom Information

Having fun while learning creates a rich classroom environment that students enjoy. Using our talents and knowledge to develop and create projects results in a memorable education. My teaching style is project based. We read and write often. Working cooperatively while showing respect for others is emphasized in our classroom. Students are encouraged to work diligently, follow guidelines, and show creativity to produce high-quality work. We share and celebrate our successes, often by earning the Grisetto Cup!
